| PROJECT NAME | Inventory Management System for Retailers |

The screenshot displays the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search icon, and a user profile labeled 'SIVA P's Account'. Below this, a breadcrumb trail shows 'Resource list / DB2F7', followed by status indicators 'Active' and 'Add tags'. A 'Details' link and an 'Actions...' dropdown menu are also visible.

The main content area is divided into two columns. The left column, under the 'Manage' tab, lists options: 'Getting started', 'Service credentials', and 'Connections'. The right column contains two panels: 'Getting started' and 'Need help?'. The 'Getting started' panel provides instructions on finding credentials and includes buttons for 'Go to UI' and 'Getting started docs'. The 'Need help?' panel prompts the user to submit a support case, with a 'Support case' button.

At the bottom of the dashboard, there's a taskbar showing a file named 'sendgrid-2022111....zip' and a 'Show all' button. The Windows taskbar at the very bottom includes a search bar, several application icons, and system information like '25°C', 'ENG', and the date '14-11-2022'.
